

BUILDING A SAFER, SMARTER AIR CARGO NETWORK TO PROTECT NEW ZEALAND

As New Zealand's air cargo sector grows, exporters rely on strong security and operational excellence to keep goods moving safely and efficiently—protecting both the supply chain and NZ Inc.

CBAFF has developed AirCertifyNZ to simplify and standardise the Known Customer process, creating a more secure and efficient air cargo supply chain.

RACAs play a vital role in ensuring your Known Customer status is recognised, validated, and maintained.

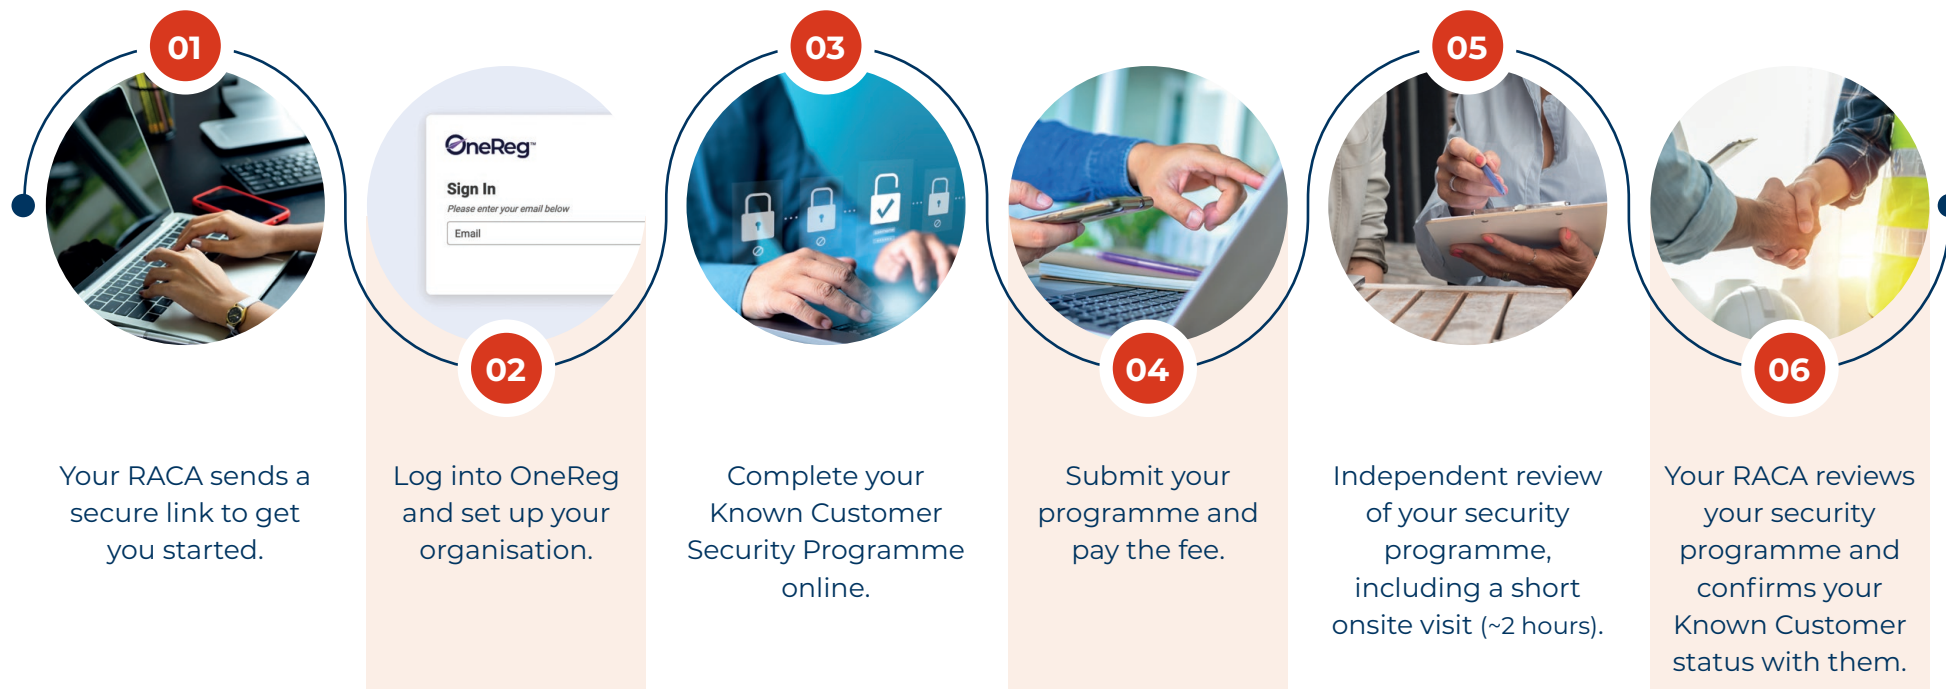

Being a Known Customer is about trust, speed, and security. It's more than a regulatory requirement; it directly improves operational efficiency, reduces risk, and demonstrates professionalism to partners and authorities.

By participating, you protect your shipments, reduce delays, and contribute to raising air cargo standards across New Zealand.

WHY JOIN AIRCERTIFYNZ?

- ▶ **Protect Your Cargo**
Minimise tampering, loss, or non-compliance
- ▶ **Streamline Operations**
One validated security programme, trusted across multiple RACAs
- ▶ **Strengthen the Industry**
Every participant helps build a safer, more reliable air cargo network, supporting New Zealand's export growth
- ▶ **Stay Compliant with Confidence**
Continuous updates help you meet security expectations effortlessly, contributing to NZ Inc's reputation for secure, reliable trade.

AirCertifyNZ – How it Works

Your annual validation cost is **\$990 + GST**, including access to the online platform, independent validation, reporting, and training. Additional revisit charges may apply if follow-up verification is needed (\$140/hr + GST and travel costs outside metro areas may apply).

AirCertifyNZ is more than just compliance, it's about supporting New Zealand Inc., enabling exporters and RACAs to operate securely and confidently.

Connect with your RACA today or email us at aircertifynz@cbaft.org.nz to learn more.
